1. Print both of the sheets. I used 180gsm photo card stock for both sheets for the card. Optionally you could print the insert on plain paper. The finished card 13cm x 18cm.
2. I backed the card with a plain piece of co-ordinated cardstock.

3. Score down the flap of the card front and fold.
4. Attach the plain card back to the right side of the flap as in the photo.

5. I cut my insert in half and cut a VERY small sliver off the centre edge.
6. Attach the left insert to the inside of the card.

7. Attach the right insert, covering the flap.

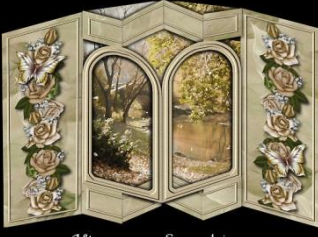

8. I shaped each of my pieces of decoupage layers with an embossing tool (large ball tool or wire loop embosser).
9. When attaching each layer I used thin double-sided tape in the centre of the flower and thick foam tape between the centre and the edge. This helps to keep the shaping done with the embossing tool.

10. Attach chosen greeting label.
