

On Your Special Day Decoupage

Designed by Joan King

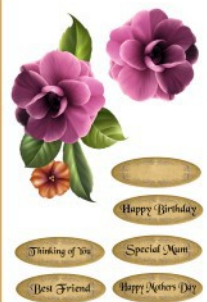

www.craftsuprint.com/joan-king/

This is a series of ten 8 inch designs which can of course be reduced down in size in your own graphics program. They are feminine cards for a special day which can include Birthday, Mother's Day, Special Mum, Best Friend or Thinking of You, I have also provided a blank tag which you can put your own greeting on with peel offs, calligraphy or stamping etc.

Print your sheet on gloss photo paper or matt decoupage paper. The gloss does bring out the colour more. Place the topper onto your card using double sided tape and after cutting out the decoupage attach it with either silicone glue or foam mounts. You can add the greeting of your choice or one of your own and finish off the card with any bling or other items you have in your crafty stash. These are nice and easy to make. Happy card making
