

Table Lamp Cards Mini Kits

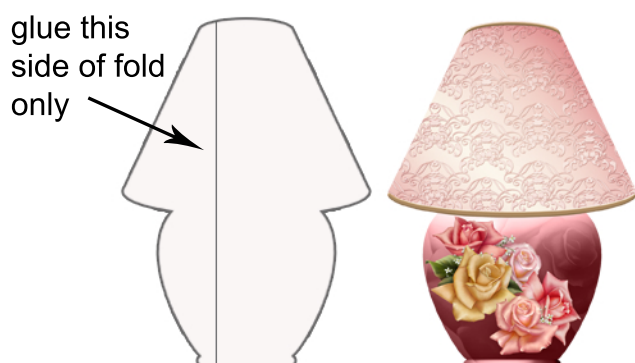

Instructions

designed by **Mary MacBean** exclusively for www.craftsuprint.com

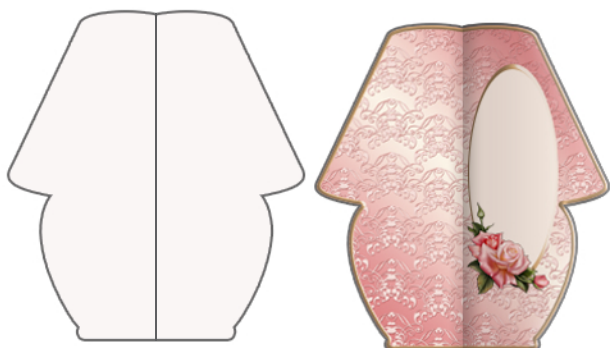

Print the 2 sheets onto medium to heavy weight card or photo paper. Cut out all pieces

Score along the fold lines on the card back and insert. Valley fold both pieces (i.e. fold towards you)

On the inside of the card back, using glue or double sided sticky tape to the left hand side of the fold only, attach the front to the back. This forms the body of the card with the stand to the back.

Open the card out flat and attach the insert to the inside of the card, matching all edges. Using wet glue makes it easier to ensure that the edges are lined up correctly.

Starting with the largest piece and building up to the smallest, attach the decoupage pieces to the front of the card, matching the design below.

To finish the card attach one of the included sentiments or use the blank tag for your own message.
