

Bottle Shaped Card Instructions

Robyn Cockburn 2014

purchased from www.craftsuprint.com

1. Print all of the sheets. I used 200gsm matte photo card stock for both of the sheets for the card and the background. The finished card is approx. 11cm wide by 26cm high. I suggest plain paper for the envelope.
2. Cut the pieces out.

3. Glue the bottle pieces to the wrong side of the background. DO NOT glue down the flap on the bottle back OR the left edge of the bottle front. The left edge has to remain open to insert the flap.

4. Insert the flap on the card back between the layers of the card front and glue in place.

5. Run a stamp pad or felt pen in a matching colour down the edge where the join is. I suggest a half shade lighter than your card, rather than darker.

6. Attach your chosen bottle label to the front.

7. Attach the decoupage layers with foam tape starting with the large group of flowers and finishing with the smallest.

8. Make a small hole in the bottle and in the small label. Attach with ribbon or string.

9. Fold all of the flaps on the envelope to the back and then unfold.
10. Attach the envelope front to the flap on the envelope back.

11. Fold flaps in again and apply glue or tape. Fold the envelope back up and attach to the flaps on the envelope front.
