

Double Arch 3D Card Instructions

Robyn Cockburn 2014

purchased from www.craftsuprint.com

These designs & more available at <http://www.craftsuprint.com/robyn-cockburn/>

1. Print both sheets. I used 180gsm gloss photo card stock.
2. These cards fit in a C5 envelope.
3. When cutting the front arch, cut around the bottom and around one flower and leaf. Cut the rest out roughly, then glue back to back, using a glue that will allow you to slide the pieces over each other and line up the bottom edge and the flowers you cut around.

4. Wipe off any excess glue before finishing the cutting. I used small scissors and a paper knife for the cuts in the centre of the arch.

5. Do the same for the back arch – not cutting out the centre, of course.

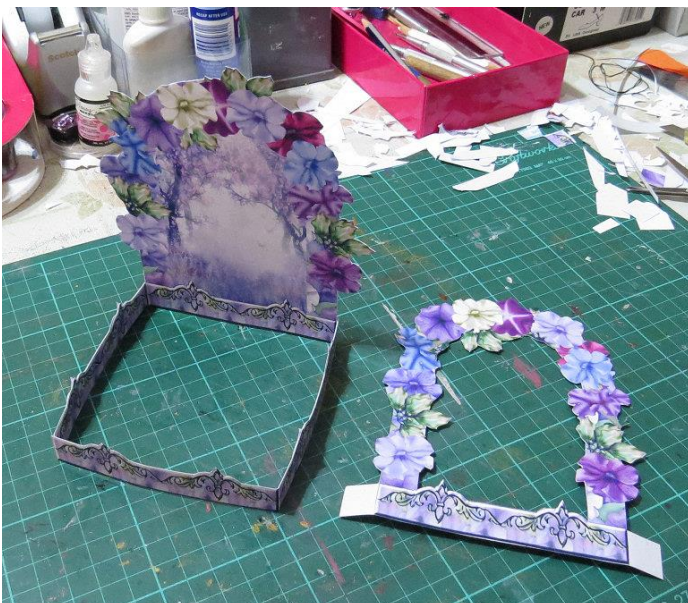

6. Fold the base pieces along each join. Glue the two base pieces together at the tab.

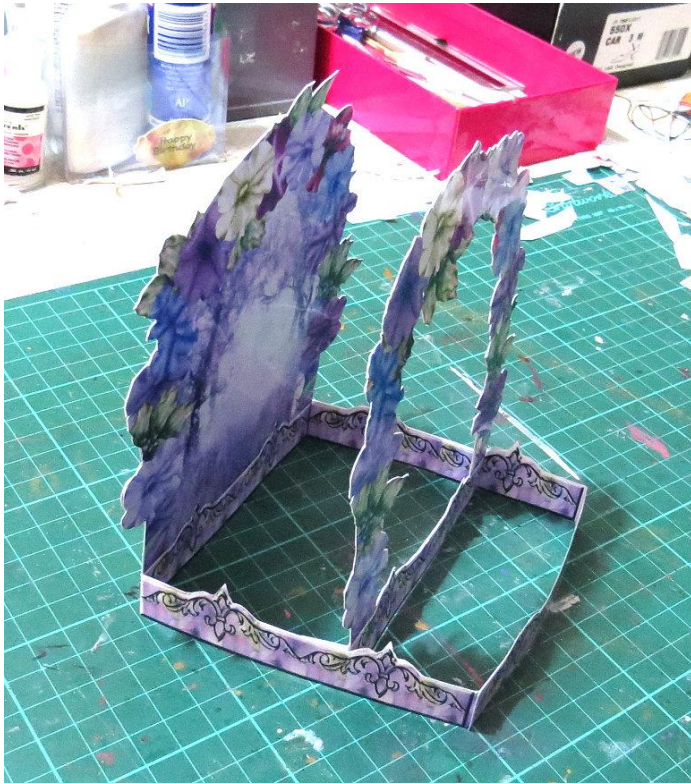

7. Glue the small base pieces to the back – only three are needed. One section will be blank and later have the back arch attached to it.

8. Glue the base into a square with the other tab.

9. Attach the back arch to the inside back of the base.

10. Using tape or glue on the tabs attach the front arch approximately 2/3 of the way towards the front of the base.

11. Add your decoupage items wherever you wish.

When flat your card will look like this and will fit into a C5 envelope. (Size is approx. 21cm x 15cm when flat).

On the back there is space for your own message.

Here are a few samples of my other card kits. Please view my homepage to see more at
