

3D Carousel Scene Cards

Really Special keepsake cards that are simple to make but look so stunning when made up and will WOW the recipient

For best results print onto photo paper.

3D Carousel Scene Cards

Please read the instructions all the way through before starting to make up.

Print sheets:-

1 to 4 - x 4 times each

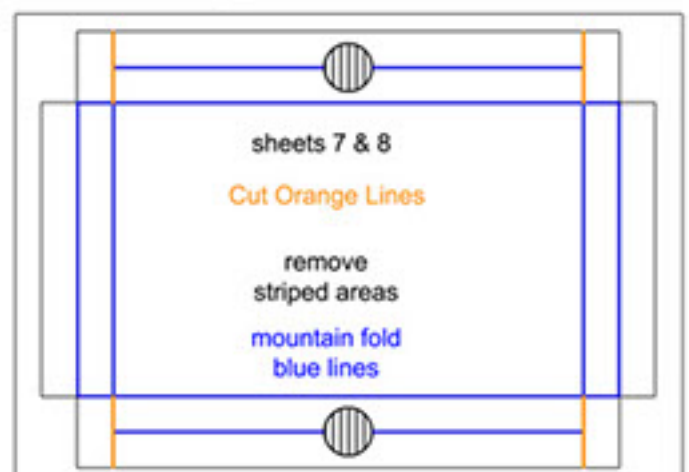

5 to 8 - x 1 times each

Print sheet 9 onto the reverse of sheets 7 & 8 for a pretty lining to your box

I would recommend photo paper for this card as cardstock may be a little thick and you would then have problems closing your box.

before cutting out use a ruler and scoring tool to score the fold lines on sheets where marked I have marked these in red and blue on the diagrams

Cut out all the pieces.
Fold and crease all score lines using a bone folder.

3D Carousel Scene Cards

Take a back, middle and front piece.

Add dst to the glue tabs on the short edge of the middle and front pieces, where marked in red on the photo

Fold and burnish with a bone folder.

Line up the left hand edge of the middle and back layers and adhere in place

Do the same on the right hand side.

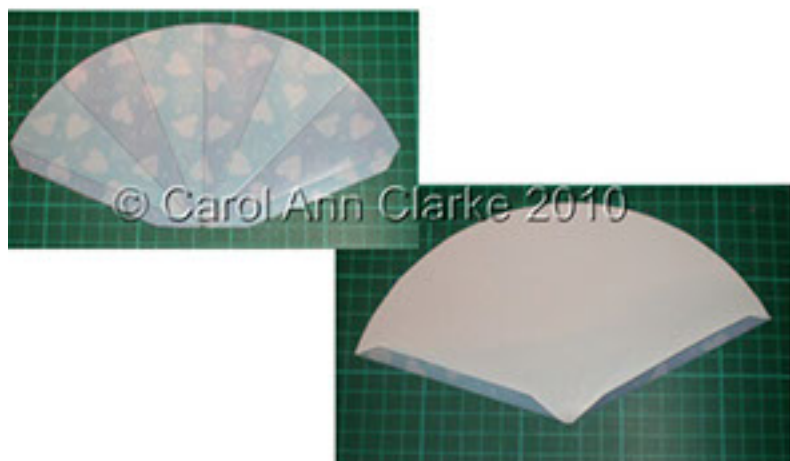

Repeat with the front layer

Your set will now look like this .

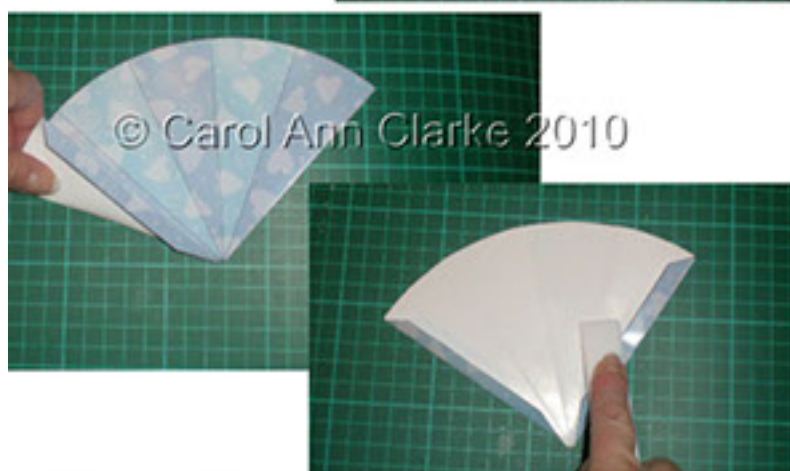

Repeat with the other 3 sets.

3D Carousel Scene Cards

NOTE - If you have problems with the thickness of your card use a thinner photo paper for the canopy

Take a canopy piece, turn over and fold in the tabs.
Add dst to the wrong (white) side of the glue tabs

Fold and burnish in a concertina style on each of the scored lines with a bone folder.

Your canopy will now look like the left hand photo from above and like the right hand photo from the front. Repeat with the other 3 canopy pieces

Insert a canopy into the top of one of your sets of pieces.
Adhere the glue tabs to the outside as shown on the left hand photo.
Your set will now look like the right hand photo
Repeat and add a canopy to each of the other 4 sets

3D Carousel Scene Cards

Take a set and add dst to one of the white sides as shown in red on the left hand photo. Adhere a 2nd set in place lining up all the edges. Repeat with the remaining 2 sets

Add a length of ribbon taking it from the front, over the spine and along the back. I also added a 2nd length of ribbon to mine. This will keep the spine together whilst also holding your card when both open and closed.

Add the front and back pieces using dst, lining up the edges. This will also adhere and secure the ribbon/s in place.

Now comes the fun bit ... you will find lots of decoupage, tags & greetings etc in your kit and you can choose where to add it you could make a different card every time!!

Use flat glue or dst for this or you card will not fit into it's box

3D Carousel Scene Cards

Take the front of the box. Fold and burnish the scored lines using a bone folder.

Turn over and add dst where marked in red on the right hand photo **do not add dst to the tabs.** To make it easier for you to see what I am doing I didn't print the backing paper onto the reverse of my lid.

Fold in and adhere the short edges.

Lift up the short edges, folding the tabs into the centre

Lift up the side of the box and making sure the corner is square adhere in place. Repeat for the remaining 3 corners

Fold in and adhere the remaining 2 sides.

Cut out the half circles and make the base of your box in the same way

3D Carousel Scene Cards

There's lots of decoupage and as it's all separate you can chose where to add it .. and even make a different card every time!

The ribbons hold your card open and closed and the matching box finishes this keepsake card off beautifully.
