

## Instructions

### Shaped Triangular Base Book Card Kit – by Sue Douglas

[www.craftsuprint.com/sue-douglas/](http://www.craftsuprint.com/sue-douglas/)

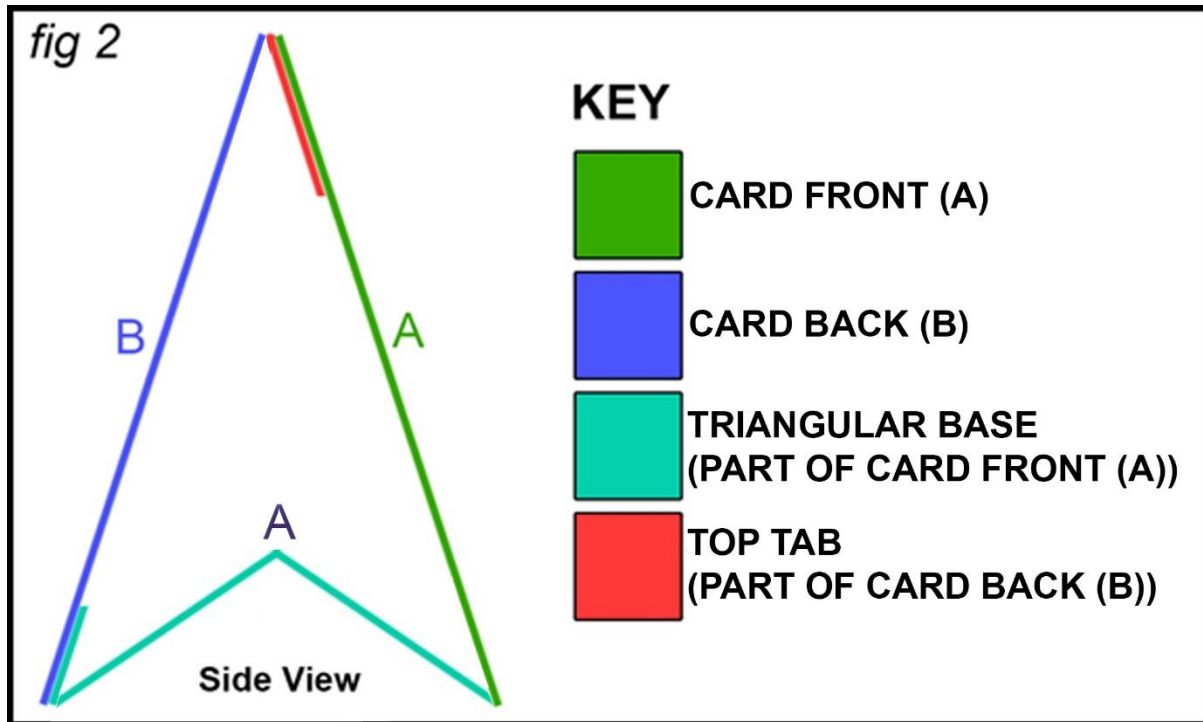

For best results print out the sheets in the kit on to Photo Paper (250gsm) or smooth white cardstock (200gsm - 300gsm). If you do print on to thinner Photo Paper or a low weight cardstock you may find that the Card Front (A) (excluding the triangular base tab) and the Card Back (B) (excluding the top tab) may need to be reinforced by backing those pieces with white cardstock. To assemble the card, apply double sided tape to the wrong side of the tab on the triangular base section of the Card Front (A) and also to the glue box on the Top Tab on the Card Back (B) piece. Score and Fold along the dotted lines on the triangular base section on the Card Front (A). The fold line nearest the tab and the fold line nearest the card front are mountain folds and the centre fold is a valley fold. Score and Fold along the dotted line on the Top Tab on the Card Back (B) (this fold is a mountain fold). Attach the Card Front (A) to the Card Back (B) as shown in *fig 1* below, which shows how to attach pieces, A and B. Fold over the Top Tab (on the Card Back (B)) remove the double sided tape from the Glue Box. Making sure that the shape on the Card Front (A) and the Card Back (B) match up, flip the Card Front (A) over the top of the glue box on the Top Tab to attach.

See *fig 2* on next page to see the side view that you should have once the card is assembled. N.B. For instructional purposes, the shaped card front and card back on *fig 1*, are shown as generic shapes, not necessarily specific to the design you are making, so that these instructions can be used for all of my Shaped Triangular Base Book Card Kits.

See *fig 2* below to see how your assembled card should look from the side view:

**fig 2 Side View**

So that's the card base fully assembled, all that's left to do now, is to apply the decoupage on to the Card Front (A). Please note that on some designs, some of the Card Front Decoupage may be held on the Card Back sheet. The Card Back does not have any decoupage apart from those designs that have a choice of Sentiment Panel, which is attached with wet glue or double sided tape, over the top of the left hand panel on the Card Back sheet, if the sentiment isn't suitable.

Apply the Decoupage to the Card Front (A) using 3d Foam Pads or Glue Gel. Some designs will have a choice of Sentiment Panel (C) for the back of the card, if you prefer one of the provided sentiment panels to the one included on the design of the Card Back apply the Sentiment Panel (C) with wet glue or double sided tape.

Instructions for those designs which have Butterfly decoupage:

If the shaped card you have purchased, has decoupage butterflies, score and fold each side of the butterfly bodies, and bend the wings upwards. Apply wet glue, just to the underside of the butterfly bodies and apply to the card front. When the glue is dry, re-bend the wings upwards, so that the butterfly/butterflies, look as if they are about to take flight off your card project!

The card folds flat for posting and is sized to fit the included envelope. For the envelope instructions please see the Envelope Back sheet for detailed instructions. I do hope you are pleased with your finished card! For more designs in my Shaped Triangular Base Book Card collection, please go to my store at: [www.craftsuprint.com/sue-douglas/](http://www.craftsuprint.com/sue-douglas/) and in my search box enter **Triangular**
