

Flower DL Trifold Cards

These cards are quick and easy to make but look fabulous when made.

Print all the pages in the kit.

First thing is to score the fold lines on the main page before cutting the card front out. Score on the area at the top of the card where the fold lines are indicated but do not score the printed area just yet. Once you have scored top and bottom, turn the card over and use the marks to line up and then using a bone folder or a scoring tool or board score the back of the card for the full length of the score lines.

Next thing to do is fold the card according to instructions (mountain/valley folds)

Now cut the main card area out.

Cut out the topper (some have 2 options) and using either double sided tape or thin foam pads, place on the front of the card. Using the topper is optional, you can just use the card front 'as is'.

If you want to use one of the printed verses in the kit, then add this to the centre of the card, or you can leave it blank for handwriting or maybe you have a rub on verse you would like to add to the blank centres.

Then it's up to you which pieces you want to use to decoupage the front of the card. Cut and add with thin foam pads. Use as many or as few as you wish. I have given many options for the decoupage pieces. Some have background fill and others don't so there is a choice of whatever suits you best.

Add your front sentiment and embellish the card how you would like.

Thank you for purchasing. More designs can be found at my store <https://www.craftsuprint.com/vicki-avcin/>

Feel free to post your made up card in the gallery for the item. I love to see what people do with the designs.
