

# Animated Moveable Wobble Head

## Card Kits - Page 2

Take the back piece of your card and turn over. Fold and crease along each of the the score lines

Do the same with the score line on the front piece

Use either a glue stick or double sided tape on the front flap.

# Animated Moveable Wobble Head

## Card Kits - Page 3

Place the back layer face up on top, line up and stick down.

Open up and use either glue or double side tape on the small flap on the back of the card.

Fold back down and stick in place.

Your card will now stand up. Add double sided tape to the front panel of the card. I've added one in each corner but you could add more but make sure they don't interfere with the animation mechanism.

# Animated Moveable Wobble Head

## Card Kits - Page 4

Make up the animation mechanism and front panel according to the instructions in your kit and attach in place using thin foam pads

Add double sided tape to the top part of the animation bar. You can add it above and below or over the brad but make sure it doesn't go below the slot on the front panel.

Add the head to the animation bar, sticking firmly in place.

The back of your card

There are greetings sentiments on the sheet and these can be added too. The decoupage layers are optional and can either be used on the animated card or alternatively on the card without the animation.

Your finished card  
A gentle push or pull on the animation bar will allow the decoupage to animate and move!

To ring the changes you could use the card without the animation layer, or together with the decoupage layers for a different look

Print the matching envelope that is also included in the kit onto good quality paper. Make up using glue or double sided tape to secure the flaps.

Your card will fold flat and is now ready to be sent

There are lots more of my animated moveable Wobble Head kits to choose from

\*\*\* Have fun!! \*\*\*
