

Iris Fold Framed Pyramid Tutorial

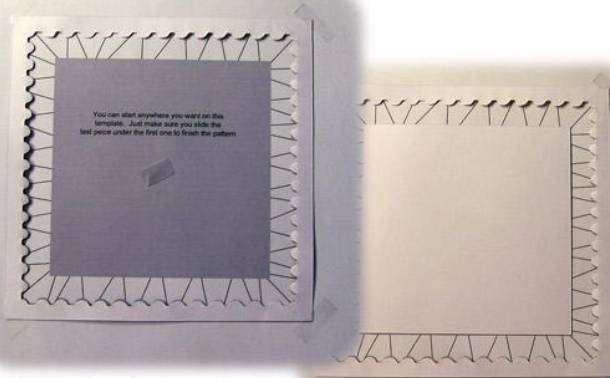

© Carol Lepard 2011

Print Card Pg 1 on Card stock and Folding template on Copy paper.

Cut out all pieces on pg 1

Place the largest piece face down over Folding template. Barely tape the corners to hold. Add a small piece of rolled tape to the center to hold the large pyramid piece.

Carefully run Double Side Sticky tape along outside edge. Be careful not to cover any part of the empty inner part.

Start adding Iris Folded pieces.

NOTE: This particular pattern can be started anywhere.

Continue placing pieces according to the pattern until you get to the very last piece. CAREFULLY peel back the first piece until you can see the last placement line.

Place the very last piece.

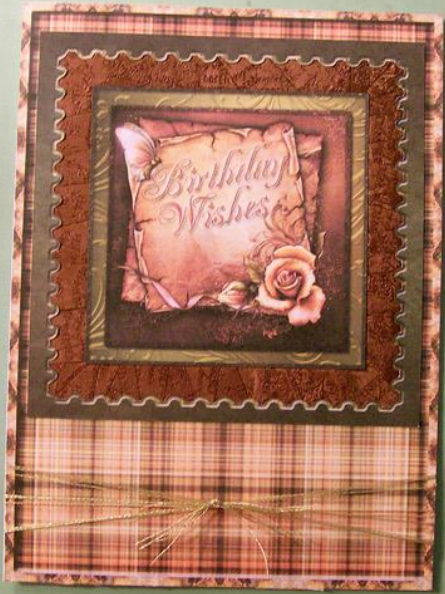

Then replace first piece again and retape down. Folding is finished. Carefully remove from folding template.

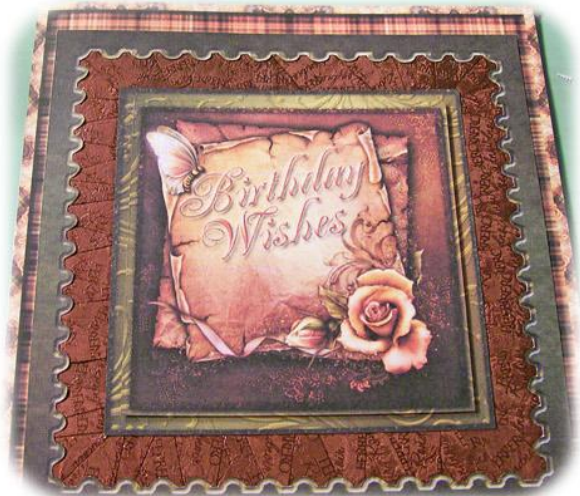

I used Ferrero Chocolate Foils for my folding. ;^)

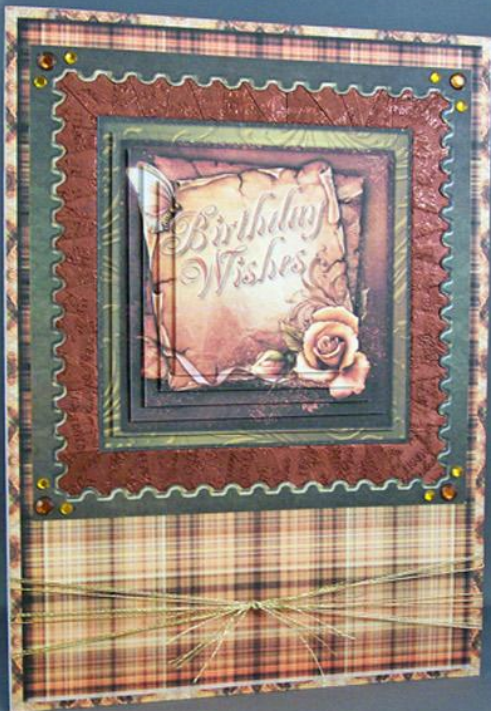

Prepare Card Base with included Backing papers as desired.

Using DSST, adhere Iris Folded piece to prepared card base.

Layer pyramid up with Foam tape/dots.

Embellish finished card as desired.
