

# “Wordsearch Card” Instructions

From [www.craftsuprint.com](http://www.craftsuprint.com), written by Sarah Edwards

## To make the A5 version of a Wordsearch Card:

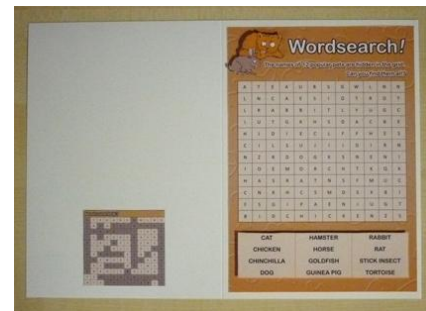

1. Print the A5 version of the wordsearch onto photo paper
2. Cut out all of the elements on the sheet
3. Stick the A5 card front to the front of an A5 card

4. Stick the cutout toppers of the top-left image and the 12 hidden words to the card front using 3D foam pads or silicon glue.

5. Stick the “wordsearch answers” topper to the back of the card

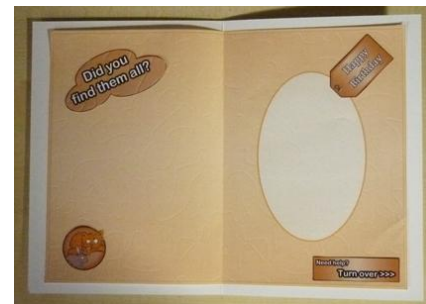

6. Print out the coordinating insert onto paper and cut it out

7. Stick it to the inside of your card

8. Add the remainder of the toppers that you cut out earlier

Make sure you add the “Need help?” rectangle to the right side of the insert so that the recipient knows to turn the card over to view the answers on the back.

## To make the A4 version of a Wordsearch Card:

Just print the sheet onto paper – it’s that simple! 😊
