

Doolirama Tutorial by Karin Johansson

How to put it together:

Cut out all parts. Cut out all white parts on layer 2 and 3. Score the black lines. Put the 3d image together.

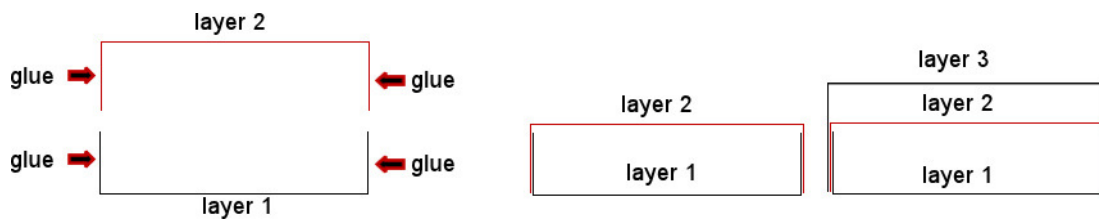

Put the 3d on layer 2. Put glue / double sided tape as the image shows.

Fold a A4 cardboard. Put layer 1 on the card with glue / double sided tape. Image facing up.

Put layer 2 on layer 1. Before you put on layer 3 onto layer 2 you can put some acetate on the back of it.

Tip: To get a more sturdy card glue layer 1 - 3 on a cardboard (120 - 180 mg) before you score the black lines.

If you have any questions you can reach me on the forum!

Here is a picture of a finished card...
