

DL Combo Card Tutorial

© Carol Lepard 2012

Print Card Front & Accessory Sheet (if included) on good quality cardstock

Print remaining sheets (insert, envelope & tea bag tiles) on 24# (90 gsm) paper

Cut out card elements (leaving area between bookmark pieces uncut), envelope (leave top of envelope front flap uncut), desired number of desired tea bag tiles.

Add card front to card blank. Layer up pyramid/step-by-step with foam tape or silicon.

Fold insert and attach inside card.

Fold desired tea bag tiles in desired fold and attach medallion to card front. (Don't be afraid to try a new fold! The fold used on this card is my Kite in a Diamond)

For the Bookmark & Gift Card: Fold both in half, using desired adhesive, adhere the front and back of the bookmark together. Cut off waste from bookmark. Using a small punch, punch hole in bookmark & gift card. Add ribbon or tassel.

For the envelope:
Add DSST to the uncut portion
then finish cutting out. Score
all lines. Glue tabs from back
inside sides of front. Fold up
bottom tab and glue.

Finished Kit

(I don't add sentiments
until I am ready to send,
but they can be added
to the front or the
inside of the card)
