

Pop-Out Cards designed by Lynne Crosskill for www.craftsuprint.com

These cards are so easy to make it will amaze you.

1. Print out all pieces on good quality cardstock or photo paper using the background image if desired for the back of your card.
2. Cut out all pieces.
3. Fold the main panel according to instruction. Do the same with your front panel.
4. Using a good quality glue, glue the front to the back matching the small arches.
5. With 3D foam tabs add 3 dimensional pieces.
6. Make your envelope and you are done.

(Card folds flat for mailing.)
