

chalkboard cards tutorial

main card v

decoupage element (faux envelope)
purchased from www.craftjunkie.com Designed by Doree Hannah

for this card you will need: scissors, double stick tape, foam dots, a card blank, and embellishments (optional)
print your sheet and cut out the two parts.

using ds tape attach the main card image to your card front. Then using foam dots attach the decoupage element on top.

Now you can add any embellishments you would like (optional)
I added a snowman.
You could add dimensional snowflakes, ribbons, bows, etc....
I printed the chalkboard image on matte paper, and the snowman on glossy.
